

## **Introduction**

Arts & crafts projects can be cheap, easy to set and fun for all ages. Bits & Bobs Scrap Store will show you how to have a great (& creative) time running arts & craft activities for hardly anything.

The course is aimed at sessional and volunteer youth and children's workers who are looking to use scrap materials for basic arts and crafts sessions.

## **Content**

The course will be practice based and provide opportunities to create basic arts and crafts models using a range of scrap materials provided by Bits and Bobs. A limited range of scrap materials will also be available for sale.

The course is very practical with group activities, discussion and tutor input. Arts & Crafts can get a bit messy – so wear appropriate clothes.

## **Outcomes**

By the end of the course participants will;

- Be aware of the Bits and Bobs Scrap Store and the materials it has available
- Be able follow a basic design and create an arts & crafts model
- Be aware of the environmental benefit of using scrap in arts & crafts
- Have had experience of participating in arts & crafts activities
- Be able to run an arts & crafts activity for children or young people

## **Follow Up**

Please answer all the questions;

- Where do you your youth or children's work?
- When did you do the course?
- Briefly describe an arts & crafts activity you have used with a group or club.
- Which parts of the activity went well? Why?
- Which parts of the activity didn't go well? Why?
- What would you do differently when you do arts & crafts again?
- How (or where) would you be able to find more arts & crafts ideas?
