

## LAYC Training Scheme Infection Control

### **Introduction**

Aimed primarily at Managers and Senior Play Workers in after school club settings to consider the issues and appropriate responses to Infection Control aspects of the Care Commission annual inspection practices.

### **Content**

The course has a mixture of Powerpoint presentations and handouts along with some group discussion.

Covering the who, when and how of Hand Hygiene and an overview of various common Healthcare Acquired Infections (HAI) there will be a number of supporting handouts depending on the topics covered.

### **Outcomes**

By the end of the course participants will have:

- Have a greater understanding of infection control issues in their clubs and groups
- Be more aware of when and how to wash hands effectively
- Have identified ways of improving communication with users (parents and children) and staff about infection control issues
